

Muswell Hill Neighbourhood Management

Aims and objectives

The Neighbourhood Management team has been working with local residents and traders on a number of initiatives.

- The delivery of the Making the Difference projects which are chosen through the Area Assembly meetings annually.
- Archway Business Shopping Directory which was delivered to all residences in the area.
- Community Street Audits are led with local residents and are also attended by local councillors. They give local residents an opportunity to point out problems on the streets and for officers to then take action.
- Community projects such as the Coldfall estate Christmas Party and the Festive Lights in Muswell Hill which were paid for by Neighbourhood Management.
