

St Ann's Neighbourhood Management

Aims and objectives

Some of the initiatives that demonstrated Neighbourhood Management's commitment to residents concerns were:

- Successfully finding funding to improve the Railway Bridge in Green Lanes by 'branding' the bridge with messages to give a positive local image, relandscaping the adjoining embankments, pigeon proofing and changing layout to deter graffiti.
- Providing hanging baskets and new trees along Green Lanes funded through the 'Making the Difference' budget.
- Christmas lights were put up for the first time through collaboration between the Council and Traders Association.
- 'Harringay Passage' was cleaned up and improved lighting provided.
- Providing newsletters translated into Greek and Turkish for local businesses.
